PROFESSIONAL SUMMARY

Results-oriented Software Engineer and Full-Stack Developer with strong expertise in Java, React, Node.js, and scalable web architectures. Proven track record in developing autonomous AI-driven systems, responsive e-commerce platforms, and gamified web applications. Possesses a solid foundation in Data Structures and Algorithms (DSA), complex problem solving, API design, and database management. Adept at building clean, performance-optimized solutions for modern IT, AI, and game design environments.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, HTML5/CSS3, SQL
- **Core Competencies:** Data Structures & Algorithms (DSA), Problem Solving, System Design, Object-Oriented Programming
- **Frontend Technologies:** React 19, Next.js 16, Tailwind CSS, Radix UI, Framer Motion
- **Backend & Databases:** Node.js, Express.js, RESTful APIs, MongoDB, Supabase (PostgreSQL), ChromaDB
- **Tools & Methodologies:** Git/GitHub, Vite, Postman, Agile/Scrum, Prompt Engineering

CERTIFICATIONS & ACHIEVEMENTS

- **Java (Basic) Certificate** – HackerRank | [View Certificate](#)
- **Algorithmic Problem Solving:** Successfully solved 150+ Data Structures and Algorithms (DSA) problems on LeetCode utilizing Java.

TECHNICAL PROJECTS

IntervAI — Autonomous AI Technical Interviewer

[Live Project](#)

Next.js, Node.js, Express, MongoDB, OpenRouter API

- Engineered a full-stack AI technical interviewer for dynamic, multi-turn software engineering assessments.
- Integrated OpenRouter API to evaluate system design and agentic workflows, generating detailed performance scorecards.
- Architected a dual-engine system with in-memory heuristic fallbacks ensuring zero-downtime during API rate limits.
- Built a responsive React and Tailwind CSS candidate portal with personalized learning telemetry data.

Hemant Tiles & Building Material Platform

[Live Project](#)

React 19, TypeScript, Vite, Supabase, Tailwind CSS

- Developed a responsive digital storefront optimizing product discovery and seamless customer navigation.
- Built scalable UI components using React 19 and TypeScript, integrating Supabase for secure backend data management.
- Implemented structured form handling with Zod validation and React Hook Form to streamline customer inquiries.

Jeevan Setu — Gamified Disaster Management System

Full-Stack Frameworks, REST APIs

- Developed a gamified educational platform for disaster management in an agile team environment.
- Integrated full-stack REST APIs to manage dynamic user progress, real-time data rendering, and gamification logic.
- Applied core game design principles to significantly enhance user engagement and educational outcomes.

EDUCATION

JSS Academy of Technical Education, Noida, UP

2023 – 2027

Bachelor of Technology (B.Tech) in Computer Science and Engineering
